

20-025 – Subsea Battery

Title	Subsea Battery
Description	<p>General Dynamics Mission Systems is seeking a deep water battery module and/or assembly. Currently available, semi-custom and fully custom solutions are acceptable. The initial ask is for a pressure compensated design. However, a pressure vessel design may be considered but weight and volume are at a premium, so energy density must be maximized. A Non-Disclosure Agreement will be required.</p> <p><u>Interested parties should email a response including:</u></p> <ul style="list-style-type: none"> • Synopsis of company capabilities • Current level of certification of cybersecurity compliance • Contact for Non-Disclosure Agreement • Answers to the below questions <p>1. Does your company intend to utilize US based or off shore facilities to perform any activity required by this TechScout?</p> <p>2. Does your company expect to utilize foreign nationals in any capacity in support of this TechScout?</p> <p><i>If you answered “YES” to either of the questions above, then:</i></p> <p>3. Are you registered with the Directorate of Defense Trade Controls at the U.S. Department of State as a manufacturer or exporter of defense articles and services?</p> <p>4. Do you have an Export Control Program and resources that address U.S. export control regulations (i.e. EAR and ITAR) that may affect your business?</p> <p>Selected companies will receive detailed requirements and specifications. There will be a dialogue of ROM pricing and cost target.</p>
Keyword(s)	Subsea battery, deep water, pressure compensated, battery module, battery assembly, pressure vessel
