GENERAL DYNAMICS
Mission Systems

SECURING THE MISSION ACROSS HIGH RISK & MOBILE ENVIRONMENTS

High Assurance encryption defends networks against dynamic threats, and protects the Nation's most critical information across land, air, sea and space.

THE SMALLEST, LIGHTEST NSA CERTIFIED HAIPES FOR TACTICAL COMMUNICATIONS

TACLANE®-Nano (KG-175N)
Protecting TS/SCI and Below

100 Mb/s
Full-Duplex
Throughput

TACLANE-C175N (CHVP)
Protecting Secret and Below

WHAT CHVP BRINGS TO THE MISSION

Cryptographic High Value Products (CHVP) bridge the need for NSA certified High Assurance encryption with reduced equipment handling requirements necessary to secure information in high risk environments.
